Year 5 Autumn 1 Online Safety

How can you stay safe online?

Strong passwords help protect your account and personal data.

Online applications require permission to access your personal data.

Online communication can happen on..
text
email
video call
online games

I can..

- ❑ Create a strong password
- ❑ Name different ways people communicate online
- ❑ Search safely for reliable information
- ❑ Explain how technology can impact my wellbeing
- ❑ Explain how to respect someone else's creation online

Bullying can happen online. This is called cyber-bullying.
It is never ok to join in with bullying.
Save evidence of bullying and show a trusted adult.

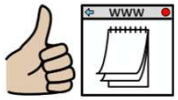
Copyright and ownership

Creative work belongs to its creator.
We must ask **permission** before copying or using someone's creation.
When we use someone's creation, we need to name them to give them **credit**.

Is everything you read online true?

How can you check?

Compare sources



Use trusted websites

Ask a trusted adult

Wellbeing online

Online activities help us learn and keep us connected.

However, it can become unhealthy if we spend too long online or see upsetting content.
