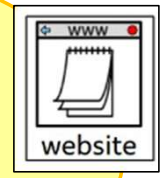
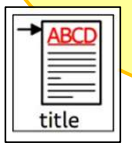
Year 3 Autumn 1 Online Safety

Some websites and social media platforms have age restrictions. This keeps children safe online.

We can respect other people's work by giving them **credit**. We do this by naming the author, title and website. We cannot use other people's work without permission.





Not everything online is true. People can share different information online including...

Key vocabulary

belief
fact
fake news
hoax
internet
opinion
reliable
credit
author
title
content
permission
share
organisation
autocomplete
digital device
smart device
age-restriction
Social media

If you see something unkind or something that makes you feel worried or scared - tell a trusted adult.

Think

- who created it?
- Can I trust the source?
- Does another website say the same thing?
