Motion: To move or be moved.

Figure: A human body shown in a piece of art. I t can be standing, sitting ot moving.

Perspective: To give the impression of the right height, width, depth or position.

Shading: The darkening of an illustration.

Stippling: Shading using small dots.

Hatching: Shading with closely drawn lines.

Oval: Elliptical shape.

Blurring: To make less clear.

How artists show motion

In this painting, Emil Nodle has shown motion by:

Using loose lines

Blurring the edges

Using contrasting colours to the background.

Can you think of other techniques to show motion?

Drawing figures:

Begin using stick drawings.

Add outlines using oval shapes

Use shading and texture techniques to add detail.
