Y1 PARENT AND CHILD PUPPET WORKSHOP

What are the benefits of using puppets to retell stories?

- Puppets can help children who lack confidence to retell a story.
- Puppets encourage the use of speech.
- Puppets can help children develop their social skills.
- Puppets can be used to help emotional development.
- Puppets can help children build their confidence in reading and speaking.
- Making puppets regularly can help children express their creativity and help to build their fine motor skills.
- Using puppets encourages children to use their imagination.

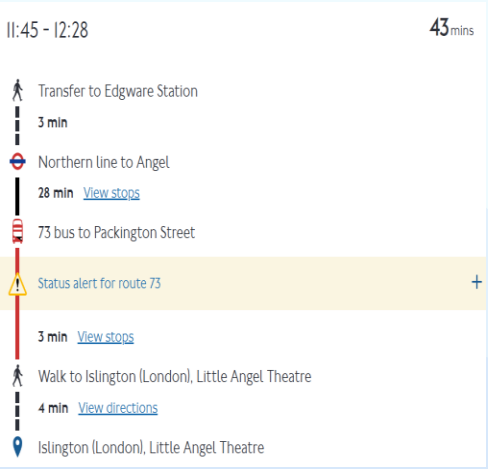

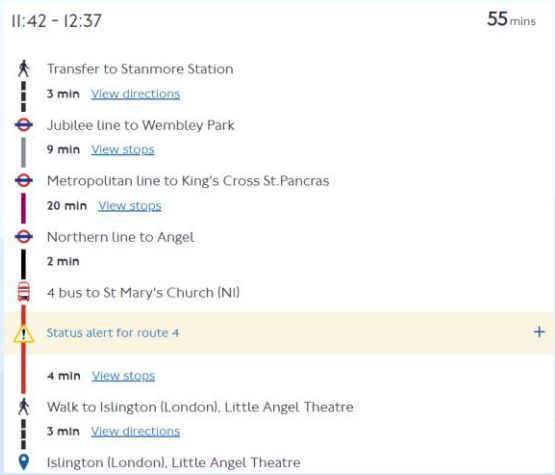

The Little Angel Theatre - Islington

14 Dagmar Passage,
Islington, London N1 2DN

- The Little Angel Theatre is a wonderful small, family friendly theatre situated in Islington.
  It is a short distance from Angel station – See directions from Edgware and Stanmore stations below.
- Click the link to find out what is currently on at the LAT and what will be showing over the next few months.

NOW LETS GET CREATIVE!

STEP 1

Each class has their own ‘station’, make sure you are **only** taking resources from your class table.

STEP 2

GET CREATIVE!
Try to help your child instead of doing things for them.
You will be *very* surprised at how much they can do independently!

STEP 3

When the session is coming to a close, please help us to clear up by returning resources to the correct place (inside baskets/boxes etc on the same table you have taken them from).
Make sure lids are on glue sticks and pens.
Please *DO NOT* take any left over resources.

Please help us by filling in this evaluation form.

Thank you!
