

All about me

- We are all **special** and **unique** in our own way.
- We have different **families**, and families can change over time.
- Our **community** is made up of lots of different people. People may live in different places and speak different languages.
- We can show **respect** to others by being kind, listening, sharing, taking turns and celebrating our differences.

Who is in your family? How are you **related**?

What are we finding out?

- What makes me unique?
- How does autumn change the world around us?

Autumn

- 1) There are four **seasons** in a year: **spring**, **summer**, **autumn** and **winter**. Each season brings different **changes**.
- 2) Autumn comes after summer and the **weather** becomes **cooler**.
- 3) In autumn, **leaves change colour** and we can see red, orange, yellow and brown leaves on the trees.
- 4) **Leaves fall from trees** when they begin to die and they become dry and crunchy on the ground.
- 5) In autumn, the days become **shorter** and it gets **darker** earlier in the evening.

Parents as Partners

Share photographs, stories or special memories to help children talk about their families and develop a sense of belonging.
